

## REMARKS

Claims 1, 3, 4, 8, 10, and 16 have been amended for reasons unrelated to patentability to improve their form and correct minor and typographical errors therein. For example: "said coupling member" has been changed to --the coupling member-- in Claims 1 and 3; "as" has been changed to --comprising-- in Claim 4; "said base body for biasing configured and positioned to bias" has been changed to --said base body configured and positioned to bias--, in Claim 8; "n" has been deleted from Claim 10; and lines 2 and 3 of dependent Claim 16 have been amended to provide an antecedent basis for the recitation of the second pushing-out portion and the second engagement portion recited on lines 4 and 6 of this claim. Therefore, this amendment is needed for proper protection of the invention and would require no substantial amount of additional work on the part of the Office. Accordingly, this amendment satisfies the criteria for entry under MPEP §714.16 and such entry is therefore respectfully solicited.
